# Your Total Energy Partner

## 1. SIMPLIFIED SUSTAINABLE FUEL SOLUTIONS

Mansfield Oil is a proud supplier of bio and renewable fuels. For over 15 years, we have partnered with suppliers and refiners to deliver our customers a cleaner-burning diesel fuel replacement.

Compared to ultra-low sulfur diesel:

- ✓ Biodiesel emits 67% less GHG and 75% less CO2 emissions with lower NOx and soot emissions.
- ✓ Renewable diesel emits 64% less GHG and 85% less sulfur while being oxygen-free.

## 2. NATURAL GAS - MPG

Mansfield Power and Gas provides a reliable natural gas supply for a broad range of customers.

After a decade in the natural gas space, we have built long-lasting customer relationships based on our commitment to ensuring a reliable supply of competitively priced natural gas.

Compared to ultra-low sulfur diesel, natural gas emits 18% less GHG and 75% less CO2 emissions with lower NOx and soot emissions.

## 3. SELECT ENVIRONMENTAL - MSP

Mansfield Service Partner's, Select Environmental has helped customers navigate the challenging landscape of waste disposal for over 30 years.

Today's strict environmental regulations require organizations to understand and comply with a host of changing guidelines.

Our team provides guidance for managing, disposing, and recycling waste streams with approaches to help you reduce costs and liability while complying with all regulations and SPCC guidelines.
