### IN THE NEWS

#### Europe's Natural Gas Prices Rally amid Supply Concerns

The Dutch TTF Natural Gas Futures, the benchmark for Europe's gas trading, hit on Wednesday their highest level since January after Austria's OMV warned the market that Russian state giant Gazprom could halt natural gas supply to Austria due to a foreign court ruling that could interrupt OMV payments to Gazprom Export. The Austrian company assured the market that its unit OMV Gas Marketing & Trading GmbH (OGMT) "would still be able to supply its contractual customers with gas from alternative, non-Russian sources, through its extensive diversification efforts over the last several years." "In March, 93% of Austria's gas imports came from Russia. While a potential stoppage in these flows could lead to some localised tightening in the gas market, Europe as a whole should manage," Warren Patterson and Ewa Manthey wr... #### Alaskans sue to block proposed trans-Alaska natural gas pipeline

A group of young Alaskans, backed by an out-of-state nonprofit legal firm, is suing the state of Alaska and the state-owned Alaska Gasline Development Corp. in an attempt to block construction of the corporation's long-planned trans-Alaska natural gas pipeline. In a complaint filed Wednesday in Anchorage Superior Court, the eight plaintiffs argue that the corporation's founding laws are unconstitutional because the gas pipeline would result in so much climate-altering greenhouse gas that it would endanger their constitutionally guaranteed ability to access Alaska's fish, wildlife and other natural resources. The plaintiffs, who range in age from 11 to 22, are being supported by Our Children's Trust, a nonprofit that has supported climate-related lawsuits in state and federal courts across ... #### Dominion Energy may move proposed natural gas plant to Chesterfield

Dominion Energy is considering a different location for its proposed Chesterfield Energy Reliability Center (CERC). In a letter sent to the Chesterfield Board of Supervisors on May 1, Dominion Energy proposed the idea of "potentially siting CERC on the Chesterfield Power Station Property," which is around six miles away from the currently-proposed site. Dominion Spokesperson Jeremy Slayton said the idea was based on feedback from the community. "We are doing our due diligence to see if siting [CERC] at Chesterfield Power Station is feasible," Slayton said. "The project is vitally important for reliability and the 100,000+ customers we serve in Chesterfield County. We're all-in on renewables, but we need natural gas to keep the power on when the sun isn't shining and the wind isn't blowing...
