IN THE NEWS

Iran War Deals Harder blow to Natural gas than oil

At first glance, the Iran war appears to be hitting oil and gas with equal force, as missiles, drone strikes and shipping disruptions choke flows through the Strait of Hormuz. But beneath that surface symmetry lies a critical imbalance. The global gas supply chain has fewer rerouting options and less storage capacity than the oil market, making the fallout for gas consumers considerably more acute. Key gas infrastructure, liquefaction plants in particular, is more complex and expensive to build and repair than the oil equivalent.... <https://tinyurl.com/4skt8ynv>

Nat-Gas Prices Climb as weekly EIA Inventories Fall

Nat-gas prices settled higher on Thursday after weekly US gas storage levels fell more than expected. The EIA reported on Thursday that nat-gas inventories fell -54 bcf in the week ended March 20, a steeper decline than expectations of -48 bcf. Don't Miss a Day: From crude oil to coffee, sign up free for Barchart's best-in-class commodity analysis. However, gains in nat-gas were limited on Thursday amid warming US weather forecasts, potentially reducing nat-gas heating demand.... For More info go to <https://tinyurl.com/mtnk9m4s>

Southeast Asia is being hit hard by Iran's cutoff of O&G

CHIANG RAI, Thailand — Southeast Asia, home to some 700 million people, gets most of its oil and gas through the Strait of Hormuz, making it among the regions hardest hit by Iran's blockade of the waterway. The Philippines imports 90% of its oil from the Middle East, and with little to no oil making it through the Strait of Hormuz, President Ferdinand Marcos Jr. declared a national energy emergency on Tuesday, saying: "Nothing is off the table. We are looking at everything, everything that we can do."... For more info go to <https://tinyurl.com/44dxtn3r>
