#### IN THE NEWS

##### Futures Eye Breakout on Hot Weather Forecast

August natural gas futures are edging higher Friday for a third consecutive session. July settled at \$3.343, up 3.8% for the week and the highest close in nearly five months. The rally started when Commodity Weather Group called for above-normal temperatures across the Midwest and Northeast from June 30 through July 4. LSEG is projecting total U.S. gas demand including exports to climb from 102.9 Bcf per day this week to 105.3 Bcf per day next week....

##### SpaceX Plans TX Gas Pipeline to Fuel Starship Launches

SpaceX plans to begin next month building an eight mile (13-km) natural gas pipeline called "Starpipes" to its Texas launch facilities, according to county filings, as Elon Musk's company seeks to ramp up launches of its next generation Starship rocket. Starpipes, which will end at SpaceX's Texas company town of Starbase, is expected to be in service by January 26.... For More info go to

##### European Gas Prices Fluctuate

European natural gas prices fluctuated as traders assess security risks after an attack on a cargo ship in the Strait of Hormuz just as Qatar prepares to ramp up exports. Benchmark futures moved between small gains and losses Friday, having traded in a narrow range since the start of the week. ... For more info go to
