IN THE NEWS

Nat-Gas Prices Climb on Meager Storage Release

Nat-gas prices settled higher on Thursday on a smaller-than-expected storage increase. Weekly EIA nat-gas inventories rose +28 bcf in the week ended July 24, below expectations of +37 bcf. Nat-gas prices extended their gains on forecasts for warmer US weather, potentially boosting nat-gas demand from electricity providers to power an expected increase in air conditioning use. The Commodity Weather Group said on Thursday that forecasts shifted warmer, with above-normal temperatures expected in the western half of the US through August 13.

Shell agrees to sell BG Cyprus Limited

BG Cyprus Ltd. holds a 35% non-operated interest in the Cyprus Offshore Block 12, containing the Aphrodite gas field in the eastern Mediterranean. All produced gas is expected to be sold to the Egyptian Natural Gas Holding Company (EGAS). Shell has worked with the Government of Cyprus and the joint venture partners to progress the Aphrodite project to this point and selling to MOL Group will allow Shell to capture the value created, while the remaining project partners work towards a final investment decision.... Italy Becomes EU's Top LNG Importer

Jul 31, 2026 (Bloomberg) –Italy became Europe's top importer of liquefied natural gas in July as traders made use of government incentives to keep buying cargoes despite soaring prices, while neighboring countries held back on costly purchases and allowed storage levels to lag. The divergent strategies amount to opposing bets on how Europe's gas crunch will evolve before winter. If Middle East disruptions persist and prices keep climbing, Italy's expensive stockpiling could prove prescient while countries with thin inventories may face even tighter supply in winter and higher costs. ...
