IN THE NEWS

Natural Gas Is Key Inflation Concern in Europe

Soaring energy prices have rekindled inflation fears in Europe since the Iran war disrupted oil and gas flows, but policy makers and bond markets appear to be more concerned about the jump in natural gas prices rather than the increase in crude oil futures. European benchmark natural gas prices have hit a five-month high in recent days, as Europe scrambles for LNG supply to fill gas storage sites ahead of the winter.... https://tinyurl.com/6pnkt7xh

Hot US Temps, Low Storage Lifts Nat-Gas Prices

Nat-gas prices climbed to a 1-month high on Thursday and settled sharply higher on forecasts for hotter US weather, potentially boosting nat-gas demand from electricity providers to power increased air-conditioning use. Record high temperatures are expected across the Southwest through this weekend, and the Commodity Weather Group said on Thursday that above-average temperatures are expected across nearly the entire US from September 1-10.... For More info go to https://tinyurl.com/me3z59tk

Europe Enters Winter With Gas Storage at 20-Year Low

Europe is heading for the winter with one of the lowest levels of gas in storage in the past two decades as the war in the Middle East crippled LNG supply from Qatar, sent gas and LNG prices in Europe and Asia skyrocketing, and intensified competition for the shrunk pool of readily available global LNG cargoes....
