

Protect Your Drivers from COVID-19 with Backyard Mobile Fueling

A New Set of Fleet Challenges

COVID-19 has created unprecedented challenges for commercial drivers. In addition to reducing driver capacity due to sickness, the pandemic has limited driver ability to perform face-to-face deliveries. Drivers are a critical resource in fighting the pandemic, putting pressure on fleets to protect their personnel.

Protect driver health and increase driver utilization with Backyard Mobile Fueling.

How It Works

- ✓ Direct-to-vehicle fueling in your backyard during off-hours
- ✓ Touchless tank fills for your drivers and site personnel
- ✓ Electronic delivery tickets and invoicing

Mobile Fueling Benefits

In addition to protecting your company's critical drivers, mobile fueling provides the following benefits for your fleet:

- 1. Increased Driver & Truck Asset Utilization**
Drivers don't need to interrupt their route for fueling.
- 2. Reduced Labor Expense**
Eliminate fueling wait times and extra stops.
- 3. Enhanced Fuel Control**
Manage what fuel is dispensed into your trucks.
- 4. Lower Fuel Costs**
Eliminate wide retail spreads, credit card fees, and shrink.
- 5. Enhanced Reporting**
Track fueling with transparent, detailed invoicing by vehicle.

Contact Mansfield

Leading fleets are enabling their drivers to practice social distancing by limiting their exposure at the fuel pump. Whether your company is considering a **long-term transition** or simply seeking **short-term protection**, mobile fueling is a safe, affordable alternative to driver fueling.

As the largest delivered fuel supplier in North America, Mansfield Energy can help your company manage its fuel program effectively. Mansfield works with hundreds of mobile fueling partners to ensure customers experience reliable, accurate service.
