

Mobile Fueling Fuel Delivered to You

For vehicles, mobile equipment and stationery fuel tanks, Mansfield Mobile Fueling provides competitively priced, reliable fuel supply delivered to you - where and when it's needed. Whether you need gasoline, clear diesel fuel, off-road red dye diesel fuel or diesel exhaust fluid, trust the Mansfield Mobile Fueling team to deliver.

PROTECT DRIVERS' TIME

Why pay fleet drivers to waste time looking for fuel or waiting in retail fueling lines? Mobile Fueling is a labor-saving, cost-efficient

approach to reduce total operating costs. Mobile Fueling happens while drivers are off the clock. The Mansfield Mobile Fueling team comes to you and fuels your vehicles - overnight or another designated time. Your drivers appreciate not having to wait in line and you can maximize driver and vehicle resources.

KEEP STATIONERY TANKS FULL

If you have a backyard fuel storage tank, reefer unit or a fuel-driven generator, Mansfield Mobile Fueling ensures you never run out of critical fuel. We deliver the fuel you need and provide full visibility into transaction data for pricing transparency and accuracy.

Complete Visibility into Fueling Costs

The Mobile Fueling process is managed by technology that captures vehicle-level fueling data to easily track the total cost of fueling and enforce key operational metrics. Having detailed vehicle-level reporting simplifies the task of completing IFTA data.

With Mansfield Mobile Fueling, you have complete data visibility to accurately manage price validations and streamline settlement. Mobile Fueling can be tracked and billed through physical or virtual fleet cards. This enables you to track and analyze mobile fills like your retail fleet card transactions.

LOCAL SERVICE ACROSS NORTH AMERICA

When you partner with Mansfield, you benefit from our extensive DeliveryONE network of over 1,100 carrier partners and over 900 supply points. This ensures you always have reliable access to competitively priced fuel.

EXPERIENCED FUELING TEAM

Mansfield's Mobile Fueling teams adhere to strict fueling and environmental standards. They undergo rigorous licensing requirements and equipment inspections. All are commercially licensed with hazmat certification and must maintain high standards for procedural and safety training.

HOW IT WORKS

The Mansfield Mobile Fueling driver follows a detailed process:

- 01 Access fueling location and prompt fuel truck tracking system to begin fueling
- 02 Scan barcodes on vehicles
- 03 Dispense fuel into vehicles measured by certified meter
- 04 Dispense specified additives and lubricants
- 05 Re-install fuel cap upon completion
- 06 Print or email delivery ticket with date, time, transaction data

Reduce Overall Operating Costs

Fleet and fuel managers oversee many moving parts. Mansfield Mobile Fueling ensures your fleet drivers stay on the road and stationary units stay full.

It's a smart solution that saves operating costs while ensuring you always have reliable fuel where it's needed. And with complete visibility into transaction data, you have everything at your fingertips to better manage fuel usage and fleet operations.
