Reliable Service.
Experienced Support.

ENERGY COSTS GO BEYOND LOW MMBTU PRICING

At Mansfield, we understand reliable, low natural gas costs are part of our customers' big picture needs regarding total energy procurement and management. In addition to offering consistent, competitive pricing, the Mansfield team is dedicated to helping your company understand and reduce its total energy spend. After all, business owners know that the cost of energy goes well beyond the MMBTU.

COMMODITY RISK MANAGEMENT EXPERTISE

While no one can predict natural gas prices with certainty, the effects of future price volatility on your company's operations can be controlled. For Mansfield's commercial and industrial customers, we implement a wide array of risk management tools essential to controlling the effects that market swings might otherwise have on your operations. When you have a business to run, commodity price risk should be the least of your worries. Mansfield offers a wide range of strategies designed to fit your unique needs, including:

Fixed Price – Call Strips, Single Price, or Trigger

Basis – Based on major trading hubs and NYMEX

Variable – Daily Average, Fixed Basis, and FOM

Indexed – Monthly Adjusted Pricing

Structured – Price Caps, Take or Pay, BTU Swaps and Landfill Gas

Tiered – Combinations of different pricing methods for maximum flexibility

Is Your Natural Gas Provider Proactively Managing Your Energy to Save You Money?

Experienced procurement professionals understand the value of having a sophisticated energy partner when it comes to actively managing and optimizing procurement, storage, and hedging strategies. Mansfield will partner with your organization to maximize savings and operational efficiency, allowing you to focus on running your business and growing the bottom line.
